"New York City has been more excited dur-

ing the past month over the revelations which some of the best known scientists have made,

than about anything that has occurred before in years. Among the clubs, wherever men and

women congregate for social exchange of thought, in business circles and in professional life I have found one leading topic of conver-

sation, namely: the alarming increase of the great national disease—Pares is A few years ago this modern malady was almost unknown; now it seems to be the most dreaded of all diseases. The best doctors are discussing it. The Boards of Health are investigating it and scientists generally are aroused. Insanity,

eases. The best doctors are discussing it. The Boards of Health are investigating it and scientists generally are aroused. Insanity, pure and simple, was bad enough, but I believe Pares is is infinitely worse, both in its subtlety and far reaching results.

"Dr. Allen McLane Hamilton, the highest authority in America on mental and nervous diseases says: "It is a disease incident to the rapid life of this country. In many cases it is dependent upon vice and not upon actual overwork alone. Alcoholism and syphilitic disease are frequently inducing causes." Pares is shows itself in many different forms. Inability to remember and place some familiar face; a pain or tightness in the head, specially across the eyes or base of the brain; frequent watering of the eyes; absent mindedness; desire to sleep but impossibility to do so; a flushed face one day and a pale one the next; special redness of the face and eyes; these are a few of the many warnings of the approach of this dreaded disease.

"Like most new afflictions physicians have found difficulty in producing cures. Like most great discoveries, however, one man foresaw the evil and provided for it. That man was the late Prof. Phetps of Dartmouth College. He knew men required something heretofore unknown to the world, and his investigations resulted in the discovery of Paine's Celery Compound. It is admitted by the best medical talent

known to the world, and his investigations resulted in the discovery of Paine's Celery Compound. It is admitted by the best medical talent of this city that this compound is the only discovery capable of checking P a r e s is, or restoring the brain, and its popularity in New York is phenomenal. I have been surprised to learn how generally it is being used and I have been equally surprised to hear of its results. Senator Evarts, whose summer residence is near that of the late Prof. Phelps and who has known of this compound since its discovery, has

of this compound since its discovery, has used it with great success. Dr. Small, of the N. Y. County Medical Association, says that in nervous prostration, insomnia, and even chronic alcoholism following delirium tremens, it has been perfect in its power. On every hand I hear good words for it and the sentiment of New York City is entirely in its favor."

Joseph McC. Biggert and John D. Biggert each entered suit yesterday against Frank C. Reed, the President of the Chartiers Creamery Company. They state that a short time ago they were advised to purchase stock in the creamery company. The company was organized in May, 1888, with a capital stock of \$100,000. Most of the stock was held by Reed, who has been President of the company since its organi-zation. They went to him. He represented to them that the company was in a flourishing condition and was making from \$100 to \$200 profit a day. Further, that on June 1, there would be a large dividend paid. Each of the Biggerts purchased \$500 worth of stock. Instead of the company being as represented, they claim, it was insolvent, had already lost over \$20,000, and was largely indebted to Mrs. Sarah Reed, the nother of the defendant.

Executions have been issued against the ompany's property and are in the hands of the Sheriff. As a result they claim damages from Reed for inducing them to buy through his alleged false representations. A capias was issued for the arrest of Mr. Reed.

#### FLANN MUST STAY IN JAIL. Judge Acheson Refuses to Reduce the

Amount of Bail. The attorneys of young Flann appeared be fore Judge Acheson yesterday afternoon and asked that the amount of ball, set at \$10,000 by Commissioner McCandless, be reduced. The Judge from the start said the bail, in his judgment, was not too high, as it judgment, was not too high, as it was a succession of offenses which the Government now had to do with. J. Scott Ferguson, atterney for the defense, urged a lower bail that young Flann might have an opportunity to settle the matter, but the Judge was inexerable. Major E. A. Montooth, attorney for the bank, said that the books had been falsified so slickly and the figure changed before the Bank Examinar's visit that even he was misled. The attorners for Flann have only succeeded in raising \$5,000 so far, and will endeavor to raise the amount to \$10,000. In the meanwhile Flann must continue to board in

deavor to raise the amount to \$10,000. In the meanwhile Flann must continue to board in Warden Berlin's hotel.

Director J. B. Sneathen denies that any of the attaches of the Marine Bank have been dismissed in consequence of young Flann's charges. Mr. Sneathen declares that the directors are satisfied with all the employes. As to a settlement of the case Captain Sneathen says they want to recover all money possible.

#### A DEMURRER FILED

By the Pittsburg Plate Glass Company in S.

F. Barr's Suit. In the United States Circuit Court vesterday, a demurrer was filed to the bill in the equity case of Samuel F. Barr against the Pittsburg Plate Glass Company. In the bill it was alleged by Barr that the officers and directors of the Plate Glass Company, who owned a majority of the stock in the company, built the Tarentum glass stock in the company, built the Tarentum glass works and the Ford City glass works. Then they sold these works to the Pittsburg Plate Glass at an immense profit. They sold as individuals and bought in as the company, the whole company standing the amount they gained. An accounting was asked for by Barr and a decree remedying the matter.

The demurrer filed yesterday was by Edward Ford, Artemus Pitcairn, E. L. Ford and J. B. Ford. They claim that Barr has shown no capacity in himself to maintain the suit, the injury, if any existing, being to the injury of the corporation and the right to sue belonging solely to that body. Also that Barr has not shown to the satisfaction of the Court that he

shown to the satisfaction of the Court that he shown to the satisfaction of the Court that he has made any attempt to obtain redress within the corporation itself or to induce it to act in conformity with his wishes. Neither has he made an effort with the managers or stockholders to induce remedial action on their

Three executions have been issued, one for money belonging to Dierstein claimed to be in the hands of Lutz & Co., another on any property Dierstein may own, and the third for Dierstein's arrest. The rule is returnable next Wednesday morn-

The dispute in the case arose from an attempt by Mr. Robb, Mrs. Schubkagle's attorney, to compel Dierstein to give bond tor the payment of the 800 the jury awarded her. Mr. White-sell holds that as Dierstein has already given \$1,000 bond for the payment of the costs in the case pending the decision of the Supreme Court, another bond is not necessary. Dierotal the bonds of the stein, so far, has kept out of the hands of the Sheriff.

## KAUFMANNS'

BANG-UP BARGAINS FOR THE GLORIOUS FOURTH.

## KAUFMANNS'

Commencing to-morrow morning and continuing till 12 o'clock (noon) Thursday, when we shall close our doors to give our army of clerks a chance to indulge in the festivities of Independence Day, we will offer an array of bargains that'll fairly set you wild with delight. Those who would celebrate the Glorious Fourth in a new Suit, Hat, Shoes, Shirt, etc., have here a golden opportunity to do so to their heart's content, and at an unheard of small outlay of cash. But here are our prices. Read 'em and see for yourself.

### **GENUINE FRENCH BALBRIGGAN UNDERWEAR**

FOR SHIRTS Or DRAWERS,

or 85c for a suit, will be the price at which we will place on sale to-morrow morning 300 dozen Men's genuine French Balbriggan Underwear. Bear in mind, these are regular goods, not poor seconds or job lots peddled all over the country to be dumped at some "Cheap John" house for a price next to nothing. If you have any regard for your health you will steer clear of this trash and wear clean, healthful underwear, such as these genuine French Balbriggan Shirts and Drawers. We know what they are, for we imported them ourselves; and, if we say that they cannot be duplicated anywhere below 75c each, or \$1 50 per suit, we simply tell the plain, unvarnished truth. Our price-bear in mind-will be 43c per garment, or 85c per suit.

We shall also offer some special bargains in Men's fine Balbriggan Half Hose at 13c a pair; or 2 pair for 25c, that everybody should see.

## "STRAWS" FOR THE "FOURTH."

There'll be thousands of Straw Hats sold before the Fourth, and, if low prices and pretty styles will catch buyers, we shall have a monopoly of the Hat trade during the next three days. Just listen:

will buy any one of our former \$1 25, \$1 50 and \$2 Hats. 50c will buy any one of

our former goc and \$1 Hats. 25° will buy any one of our former 45c and

This sale is limited only to our fine Suits, and has nothing to do with our medium and cheap qualities. You can see at a glance how easy it is for any man to revel in the finest clothes at the prices we name. Just think, only \$15 and \$18 for Suits that in every jot and dot are equal to the garments produced by the finest merchant tailors in Pittsburg, no matter how high their prices may be. You will ask, why this extraordinary cutting of prices? We answer, call and see our stock. Look at our counter after counter of fine Dress Suits, note the high piles, consider the lateness of the season and you will not be surprised why we have made these terrific reductions. We have repeatedly said (and our experience proves it) that it is far better to take a loss (even a severe one) than to carry goods from one season to another. No live house can afford to pack its goods away, lose interest, pay storage and insurance and run the risk of a change of styles. This is our case exactly, and to-morrow (Monday) morning we shall commence to "trot out" our overstock of fine garments at a gait that will amaze you and dumfound our competitors. \$15 and \$18 will be the prices, remember, for our Men's finest tailor-made Dress Suits-garments which, if bought at any other house, would cost you from 20 to 40 per cent more money. If, however, you are not inclined or prepared to go as high as \$15 and \$18, we can serve you equally as well.

Men's Suits, for which other dealers ask \$18, we will \$12.

Men's Suits, for which other dealers ask \$15, we will duplicate for only Men's Suits, for which other dealers ask \$12, we will \$8.

Men's Suits, for which other dealers ask \$10, we will \$6.

Those who'll take in a picnic or an excursion on the Fourth (and their name is legion) should provide themselves with light coats and vests. Without them you can have no enjoyment, as the heat'll be too intense to permit the wearing of heavy garments. Now, then, come right in
